

TCRC AMA/FAA

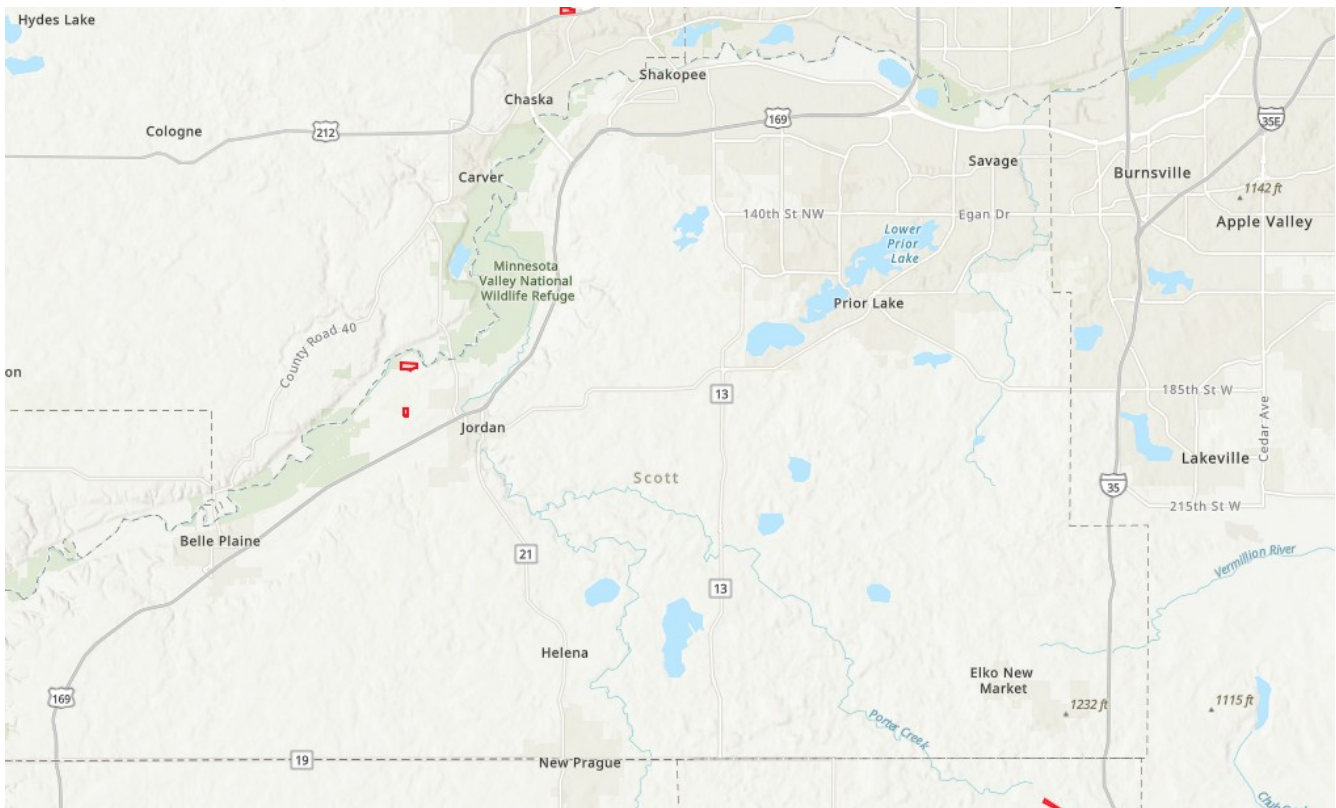

FRIA, Ceiling & Sanctioned Status

FAA Remote ID Rules for RC Fields

- **Weight threshold:** Models under 250 grams (0.55 lbs) do not require FAA registration or Remote ID.
- **The 250g+ rule:** Models weighing 250 grams or more operated recreationally must use an FAA-compliant Remote ID broadcast module or fly at an approved location.
- **FRIAs:** Flying at an FAA-Recognized Identification Area (FRIA) exempts pilots from needing a Remote ID device on their aircraft.

AMA Regulations and Site Standards

- **Community-Based Organization:** The Academy of Model Aeronautics (AMA) acts as an FAA-recognized CBO helping fields secure FRIA status.
- Many chartered flying fields require active AMA membership for personal liability insurance coverage, though the FAA itself does not mandate AMA membership to fly.
- **Registration:** Recreational pilots must register themselves with the [FAA DroneZone](#) and display their registration number on all aircraft over 250 grams.

CBO: 2023-CBO-01865-FRIA

FRIA Name	Twin City Radio Controllers #383 - West Sioux Vista Trail
Name of Afiliated CBO or Educational Institution	Academy of Model Aeronautics
FRIA Identifier	2023-CBO-01865-FRIA
Approval/Renewal Date	9/4/2023
